

SQUAW VALLEY PUBLIC SERVICE DISTRICT

SURPLUS PROPERTY LIQUIDATION

DATE: July 28, 2020
TO: Board of Directors
FROM: Allen Riley, Fire Chief
SUBJECT: Surplus Property Liquidation

BACKGROUND: The Fire Department has an asset replacement program that funds the replacement of equipment and apparatus according to anticipated service life and/or industry guidelines. At present, the Fire Department has accumulated items that have been replaced by new stock in accordance with our asset replacement program and National Fire Protection Association (NFPA) guidelines and/or are no longer needed. District code requires that the Board declare these assets to be surplus to our needs before it can be liquidated in any manner.

DISCUSSION: The items on the list below are out of date, are at the end of their service life, and have fully depreciated. This equipment has been taken out of service, but may still have some value. If the Board finds these items to be surplus, the District would attempt to sell the items. Any items which cannot be sold would be offered to other Fire Departments as donation. If the items cannot be sold or donated, they will be discarded.

The surplus equipment includes two Thermal Image Cameras (TICs), various radio equipment, a small gas powered generator/light, older power and hand tools, an air bag system (minus the air bags), various old fire hose, an overhead projector, projector screens, various old PPE and related equipment.

The radio equipment would only be donated to another fire department or government agency.

ALTERNATIVES: 1. Determine that the listed items are surplus to the District's needs and authorize staff to sell, donate or dispose of the items.

2. Take no action.

FISCAL/RESOURCE IMPACTS: It is unknown how much potential revenue sale of these items could total; while it will take some staff labor to sell the items it will only be pursued if the revenue outweighs the costs. All items required by the Department have already been replaced. Liquidation of these items will provide additional storage space in the engine bay.

RECOMMENDATION: Staff recommends the Board determine that the listed items are surplus to the District's needs and authorize staff to sell, donate or dispose of the items.

ATTACHMENTS: Notice of Surplus Property Sale including the list of assets to liquidated.

DATE PREPARED: July 13, 2020
