

SQUAW VALLEY PUBLIC SERVICE DISTRICT

CAPITAL PROJECTS REPORT

DATE: January 31, 2017

TO: District Board Members

FROM: Brandon Burks, Operations Superintendent

SUBJECT: Capital Projects Report – Information Only

BACKGROUND:

The following list provides a limited status report regarding Capital Projects for the Utility and Administration Departments. Provided are budget figures, along with commitments for pending projects and actual expenditures for completed projects.

DISCUSSION:

1. The Water System Operations Plan is complete pending two SOP's.
2. The Water System Inspections and Repairs Project is in the final phase with the upgrade of the chemical feed system at Well 2R. The project entails replacing the chemical feed manifold with a new high pressure manifold that should reduce failures and repairs.
3. Staff is completing scaled down landscape improvements to enhance the overall aesthetic of District properties. Staff is planning installation of a fence between the front and rear yards at 1810 Squaw Valley Road. The new tenant is moved into the 1810 administration office building.
4. Staff prepared a memorandum with the project description and outlined steps required for the Granite Chief Subdivision A-Line Replacement Project Development Agreement. The HOA and District are attempting to secure project support and easements from several homeowners.
5. Television work is complete on the final phase of the Sewer Television Inspection Project; final reports are now integrated into VueWorks.
6. The grant for the IRWM Regional Toilet Rebate Program was approved; the District has

received \$21,400 towards funding the replacement of up to 214 toilets. Staff inserted an article in the summer newsletter and sent a notification letter to the older multi-family units notifying them directly about the program. Grant matching funds will come mostly from operating, in the form of staff labor.

7. The Easement Abatement Project is being finalized, with inspections of the all of the final 12 properties completed; there are 4 properties pending compliance and an additional 5 properties that were previously cleared that have been notified of new encroachments. Additionally there are 2 easements to be cleared during pipeline replacement projects. 18 letters have been issued to homeowners with easements and 4 easements have been cleared by District crews.

SQUAW VALLEY PUBLIC SERVICE DISTRICT

OPERATIONS & MAINTENANCE REPORT

DATE: January 31, 2016
TO: District Board Members
FROM: Brandon Burks, Operations Superintendent
SUBJECT: Operations & Maintenance Report for December 2016 – Information Only

BACKGROUND: The discussion section below provides information on the District’s operations from the month noted above. It also includes the maintenance activities performed by the Operations Department that are not the subject of a separate report. This report is formatted to provide new information and recent progress only.

DISCUSSION:

1. Flow Report –December 2016

a. Water Production:	7.31	MG	
Comparison:	0.15	MG less than 2015	
b. Sewer Collection:	10.46	MG	
Comparison:	2.02	MG more than 2015	
c. Aquifer Level:	December 31, 2016	= 6,188.0'	
	December 31, 2015	= 6,187.9'	
	Highest Recorded	= 6,192.0'	
	Lowest Recorded	= 6,174.0'	
d. Creek Bed Elevation:	Well 2	= 6,186.9'	
e. Precipitation:	December 2016	= 15.45"	
	Season to date total	= 37.58"	
	53 year season-to-date average, Old Fire Station	= 19.75"	
	Season total to date of 53 year-to-date average	= 190.28%	

Flow Report Notes:

- The *Highest Recorded Aquifer Level* represents a rough average of the highest levels measured in the aquifer during spring melt period.
- The *Lowest Recorded Aquifer Level* is the lowest level recorded in the aquifer at 6,174.0 feet above mean sea level on October 5, 2001. This level is not necessarily indicative of the total capacity of the aquifer.

- The *Creek Bed Elevation* (per Kenneth Loy, West Yost Associates) near Well 2 is 6,186.9 feet.
- *Precipitation Season Total* is calculated from October 2016 through September 2017.
- The true *Season Total of 53 Year Average* could be higher or lower than the reported value due to the uncertainty of the Old Fire Station precipitation measurement during the period 1994 to 2004.
- In October 2011 the data acquisition point for the aquifer was changed from Well 2 to Well 2R.
- A new Nova Lynx rain gauge was used going forward from October 2016; it replaces the old Nova Lynx rain gauge and is right beside the old gauge.

2. Leaks and Repairs

a. Water

1. The District issued six leak/high usage notifications.
2. Responded to zero after-hours customer service calls.

b. Sewer

1. Responded to zero after-hours customer service calls.

3. Vehicles and Equipment

a. Vehicles

1. Cleaned vehicles and checked inventory.

b. Equipment

1. None.

4. Operations and Maintenance Projects

a. 1810 Squaw Valley Road (Old Fire Station)

1. Inspected and tested the generator.
2. General housekeeping.

b. 305 Squaw Valley Road (Administration and Fire Station Building)

1. Inspected and tested the generator.

c. Water System Maintenance

1. Nine bacteriological tests taken: including one at 410 Forest Glen Road and one at the Resort at Squaw Creek; the sample at 410 Forest Glen Road was absent and the sample at Resort at Squaw Creek was positive for Coliform and negative for E. coli. Repeat samples were immediately taken at the Resort at Squaw Creek and upstream and downstream of the positive result. These tests came back absent. At the same time, tests were taken on the supply side of all the wells including the horizontal well. All the vertical wells tests came back absent; the horizontal well came back positive for Coliform. The horizontal well had been shut off with the initial positive Coliform result at the Resort at Squaw Creek. After discussions with the State Water Resources Control Board, the horizontal

well was left off and physically disconnected from the system. The horizontal well will be investigated and evaluated when access to the well heads and pipeline can be made.

2. Five bacteriological tests taken in January 2017: All were absent.
 3. Leak detection services performed: one.
 4. Customer service turn water service on: zero.
 5. Customer service turn water service off: zero.
 6. Responded to zero customer service calls with no water.
 7. Continued testing commercial meters.
- d. Operation and Maintenance Squaw Valley Mutual Water Company
1. Basic services.
- e. Sewer System Maintenance
1. Check for I and I issues.
- f. Telemetry
1. The rainfall measurements for the month of December were as follows: Nova Lynx 15.45", Carl Gustafson: N/A, Squaw Valley Snotel: 14.00".
 2. Continued 2016-17 upgrade project.
- g. Administration
1. Monthly California State Water Boards report.
 2. Discussion with California State Water Boards on positive coliform tests.
 3. Worked on implementation of VUE Works.
5. Services Rendered
- | | |
|---|-----|
| a. Underground Service Alerts | (1) |
| b. Pre-remodel inspections | (2) |
| c. Final inspections | (0) |
| d. Fixture count inspections | (0) |
| e. Water service line inspections | (0) |
| f. Sewer service line inspections | (0) |
| g. Sewer main line inspections | (0) |
| h. Water quality complaint investigations | (0) |
| i. Water Backflow Inspections | (0) |
| j. FOG inspections | (1) |
| k. Toilet Rebate Inspections | (1) |
| l. Plan Checks | (3) |
- Other Items of Interest
- m. Training – SDRMA Online class, SDRMA Safety Booklet.

ATTACHMENTS: Monthly Water Audit Report

DATE PREPARED: January 25, 2016

Squaw Valley Public Service District - Monthly Water Audit Report

Audit Month: December Report Date: January 24, 2016 Performed By: Brandon Burks
Year: 2016
Meter Reader: Schel Roland Reading begin Date & Time: 1/4/16 8:30 AM
Reading end Date & Time: 1/4/16 11:30 AM
Total lag time: 3:00:00
Begin Audit Period: 11/30/16 12:00 AM
End Audit Period: 1/4/16 12:00 AM

Total Metered Consumption for audit period specified (including hydrant meters): 7,517,470

Additional Consumption - Unmetered
Fire Department Use: 5,000
Hydrant Flushing: 10,000
Blow-Off Flushing: _____
Sewer Cleaning: 5,000
Street Cleaning: _____
Well Flushing: _____
Tank Overflows: _____
Unread Meter Estimated Reads: _____
Other: _____
Total Unmetered Consumption (for audit period specified): 20,000

Estimated Unknown Loss - Unmetered
Known Theft: _____
Known Illegal Connections: _____
Total Estimated leaks that have been repaired: _____
Total Estimated Unmetered (for audit period specified): _____

Total Production for audit period specified: 8,391,701

Total Metered/Unmetered Consumption for audit period specified: 7,537,470

Total Water Loss (Production - Consumption): 854,231

Comments: The production totals are different than the monthly report due to a different time frame being used. The District continues to search for possible leaks.

* Note - All Production & Consumption Totals In U.S. Gallons *
