

OLYMPIC VALLEY PUBLIC SERVICE DISTRICT

PROCEDURES FOR ISSUANCE OF RESIDENTIAL SEWER AND/OR WATER PERMITS NEW CONSTRUCTION AND ADDITIONS/REMODELS

- 1) Owner/Contractor to furnish one set of plans for our records:
 - a. Site Plan (showing plot plan and location of sewer/water lines)
 - b. Electrical Plan (showing smoke and carbon monoxide detectors)
 - c. Floor Plan (with plumbing fixtures)

Plans should show all fixtures to be connected to the sewer and water system. (We do not need Building Department approved set.) **Please allow five business days for the District (including the Fire Department) to calculate Connection Fees.**
- 2) Owner/Contractor to complete "Application for Sewer and/or Water Service Permits"
- 3) Office, Field Staff & Fire Department review plans and calculates Equivalent Fixture Unit (EFU) count. Maintenance & Operations Supervisor checks easements, verifying location of sewer/water lines, cleanouts, etc.
- 4) Squaw Valley Mutual Water Company is contacted if property is located in their service area.
- 5) Connection Fees are collected based on EFU count. Check to be made payable to OVPSD. A copy of completed Application will be given to applicant.
- 6) For new water connections, the District will collect a meter deposit with the connection. Deposit amount will be determined based on the size of meter.
- 7) All shower heads are to be a maximum of 2.5 gallons per minute.
- 8) In order to protect the public water supply and in compliance with Title 17 of the California Administrative Code, the District has enacted a backflow prevention program. The District requires the installation and testing (by a certified backflow device tester) of an approved backflow prevention device, if the project includes any of the following:
 - a. Hydronic heat
 - b. Hot tub or pool
 - c. Solar panels
 - d. Lawn irrigation system
 - e. Alternate water supply (well)
 - f. Fire suppression system
 - g. Any other device which may result in a cross connection
- 9) For remodels, installation of additional plumbing fixtures will require testing of existing sanitary sewer facilities.

- 10) For some projects, a T-TSA Connection Fee is collected. (T-TSA handles treatment and disposal of sewage; SVPSD Fee is for collection and maintenance of transmission lines). Applicant to make separate check payable to T-TSA.

**T-TSA Connection Fee - \$1,500 + \$1.75 per sq. ft. per new residential living unit.
Or \$1.75 per sq.ft. for additions greater than 500sf**

- 11) T-TSA "Sewer Connection Application Receipt" is filled out, OVPSD mails check to T-TSA

- 12) **FINAL INSPECTION APPOINTMENT MUST BE MADE 48 HOURS IN ADVANCE**
